

Become a Java architect in six days!

Certified Enterprise Architect Bootcamp

You are an experienced enterprise architect, responsible for the overall software architecture and design of enterprise software systems. You want to pass the Certified Enterprise Architect (CEA) exam. Now you can take this final step in only six days.

What do I get?

The Certified Enterprise Architect Bootcamp aims at experienced architects who want to quickly achieve certification. The bootcamp is built around the certification exam and the assignment that follows. Hands-on exercises, practice questions, tips, tricks, and in-depth lectures from a very experienced Java instructor guide you toward making a successful assignment.

The bootcamp consists of four parts:

Part I: General knowledge re architectures for enterprise Java applications using the Java Platform, EE technology.

Part II: Prepares students for the SCEA exam.

Part III: Consists of taking the exam.

Part IV: Work on the SCEA assignment and prepare for the Certified Enterprise Architect essay.

How long does it take?

Six days, Monday-Saturday. Prepare for some hard work and long days. Optionally, you can stay in a hotel close to the training venue.

The bootcamp will be taught in:

English

Where and when will this bootcamp be held?

Zuerich, details will follow soonest possible, Switzerland from July 04th until 09th, 2011

When should I consider attending?

If you are an experienced enterprise architect, responsible for the overall software architecture and design of Java EE technology-based enterprise software systems. You're eager to certify, but never find the time to do it.

To succeed, you should be able to:

- Describe various Java Enterprise Edition (TM) related technologies.
- Know about distributed heterogeneous subsystems and the communication between them
- Know about distributed or local homogeneous components and the communication between them
- Perform object-oriented analysis and design of software systems using UML
- Perform object-oriented architecture of software systems using UML
- Show that you have at least two years of experience as an enterprise architect

Aberla reserves the right to refuse students, should their level of experience be deemed insufficient. When in doubt about your level, you can discuss with the instructor before registering (simply send an email to frei@aberla.com to arrange contact).

What do I gain by attending this bootcamp?

Upon completion of Part I, you should be able to:

- Describe the role and product deliverables of the architect
- Address quality-of-service requirements in a cost-effective manner using engineering trade-off techniques
- Make good use of Java EE component technologies to solve typical problems in software architecture

Upon completion of Part II, you should be able to:

- Pass the Certified Enterprise Architect exam (Part III)

Upon completion of Part IV, you should:

- Have made all fundamental decisions related to your Certified Enterprise Architect assignment
- Have finished around 80% (or more) of your Certified Enterprise Architect assignment
- Be prepared for the Certified Enterprise Architect essay related to your assignment

Who will my instructor be?

The instructor will be Dr. Luc Duponcheel. After obtaining his PhD in Mathematics from the University of Brussels, Luc Duponcheel became one of Sun's most experienced Java instructors. Luc is closely involved in making and reviewing Java certification exams.

Topics discussed

Among the topics discussed will be:

- Introducing Fundamental Architectural Concepts
- Understanding systemic Qualities
- Examining System Architecture Development Heuristics and Guidelines
- Developing an Architecture for the Client Tier
- Developing an Architecture for the Web Tier
- Developing an Architecture for the Business Tier
- Developing a Security Architecture
- Developing an Architecture for Integration and Resource Tiers
- Evaluating the Software Architecture

How do I register?

You can register by filling out and returning below form or sending an email to frei@aberla.com

Yes, I want to register for the Certified Enterprise Architect Bootcamp

Fill out the registration form and we will contact you. **You do not pay now.** Payment is by invoice to your (company) address. Cost for the program is as Early Bird CHF 5'850.00 (until 30.04.2011) and thereafter CHF 6'450.00 (all excl. VAT). Regular list price CHF 6'950.--excl. VAT...

The Bootcamp includes the full architect training course materials, practice questions, the complete certification exam with assignment.

Training date

O Zuerich, Switzerland from July 04th until 09th 2011

Name: _____

Invoice address: _____

Postal code: _____ City: _____

Telephone: _____ Email: _____

Return the completed registration form to:

Aberla GmbH, Felsenstrasse 97, 8832 Wollerau, <http://aberla.com>
